

We are not in favor of the expansion of the LPFM stations.  
We support the continued broadcast of national and regional programming on FM translators such as K-LOVE radio. My family benefits from the family-friendly programming. K-LOVE is the only station in our local area which broadcasts such programming. We financially support this station and want to receive its signal. It is community-funded and its services benefit a large segment of our community. If these proposed changes happen, it can not only impact us individually, but the future of K-LOVE nationally and internationally and all those who listen and benefit from the broadcasts. If this programming wasn't beneficial to many, it would not be on the air since its listeners fully fund it.  
Please keep K-Love and other stations like it on the air!
